EDUCATION

BS in Computer Engineering

STI Munoz-EDSA
(2022-2025)

BS in Civil Engineering (1st Year)

Our Lady of Fatima University
(2020-2021)

Senior High School - STEM

Our Lady of Fatima University
(2018-2020)

SKILLS

Database

- MySQL, PostgreSQL, SQLite, Firebase, Supabase

Data Science, Statistics, and Machine Learning

- OpenCV, Pytorch, Scikit-Learn, Tensorflow

Tools

- Git, Docker, Postman

Software Development

- **Web Applications**
 - **Client-side:** React
 - **Server-side:** NestJS
 - **Full-Stack Frameworks:** Remix, React Router, NextJS
- **Mobile Applications**
 - React Native (Expo)

WORK EXPERIENCE

Freelancing

2023 – 2025

Software Developer

- Designed and developed full-stack web and mobile applications using React, Next.js, and NestJS.
- Built and deployed scalable backend services with RESTful APIs and database integration.
- Applied machine learning models using TensorFlow and Scikit-Learn for data-driven projects.
- Collaborated with clients to deliver customized software solutions and ensure user satisfaction.

Global Officium Limited Inc.

May 2025 – June 2025

ICT / Software Developer Intern

- Designed and developed full-stack web application using Next.js.
- Built and deployed scalable backend services with RESTful APIs and database integration.
- Supported various software and hardware technical issues.

ACHIEVEMENTS

DOST-NCR Spark-A-Change Challenge

2025

Top 10 Finalist

- As a Top 10 Finalist in the DOST-NCR Spark-A-Change Challenge, I showcased innovative problem-solving skills, creativity, and the ability to design tech-driven solutions addressing real-world MSME challenges. My project was selected among numerous entries across Metro Manila, reflecting my dedication to applying computer engineering knowledge toward impactful and sustainable innovations.
